FEATURES

- Component materials comply with FDA regulations for food contact
- Soft, cotton seamless liner is permanently adhered inside of the 16-mil black neoprene coating. This post-process method ensures that the neoprene coating is a consistent thickness for the entire length of the glove
- The inserted liner provides extra comfort and durability compared to standard supported gloves
- Neoprene resists a wide range of chemicals, including acids, caustics, oils and alcohols
- Raised diamond pattern provides excellent wet grip
- Not made with natural rubber latex
- 12 inches in length
- Straight cuff for extended forearm protection
