When choosing anti-vibration gloves, it is important to assess each situation uniquely. Other precautions, such as taking breaks from vibrating equipment and utilizing ergonomic equipment, may be even more effective for reducing the likelihood and effects of hand-arm vibration syndrome (HAVS). Individuals who frequently use tools or equipment with

vibration may suffer from neuropathy, including numbness, tingling, reduced dexterity, and permanent nerve damage. The effectiveness of vibration-dampening hand protection varies greatly from situation to situation. Anti-vibration (AV) gloves may be more effective in higher-frequency vibration tasks to reduce the injuries sustained via the palm.

In some cases, AV gloves may reduce anti-vibration transmission into the hand/arm by up to 86%. Choose gloves with a gripping finish to help to relieve the pressure needed to grasp tools, enhancing the vibration-dampening effect of AV gloves. Some AV gloves from GGS also provide chemical or cut resistance, protecting hands from other potential injuries at the same time.

Ergonomic Pre-Cured Gloves with Patented Anti-Vibration Palm

- 7-gauge black cotton/nylon shell
- Tacky finish and individual pods pattern
- Ergonomic, vibration dampening, synthetic-rubber palm

Sizes: 8(M)

Item: AV1121

Ergonomic Lightweight Gloves with Patented Anti-Vibration Palm

- Lightweight 10-gauge cotton/nylon shell
- Tacky finish and individual pods pattern
- Ergonomic, vibration dampening, synthetic-rubber palm
- US Patent D 911,622 S

Sizes: 8(M)-10(XL)

Item: AV1160

Premium-Grade Grain Goatskin Fingerless Gloves

- Goatskin leather with spandex back
- Anti-Shock/Vibration padded palm
- Reinforced thumb saddle

Sizes: 7(S)-11(2XL)

Item: AV2000

Grain Goatskin Leather Palm Mechanics Style Gloves

- Premium-grade grain goatskin
- Anti-Shock/Vibration padded palm
- Reinforced thumb saddle
- Split cowhide double palm and reinforced thumb crotch

Sizes: 8(M)-10(XL)

Item: AV3008

Nitrile Chemical Handling Gloves

- Sandpaper finish
- Ergonomic, vibration dampening, synthetic-rubber palm
- Individual pods pattern enhance grip

Sizes: 9(L)-10(XL)

Item: AV805
